ANNEX IV A

LIST OF COMMITMENTS ON COMMERCIAL PRESENCE

(referred to in Article 69)

EC PARTY

1. The list of commitments below indicates the economic activities liberalised by the EC Party pursuant to Article 69 and, by means of reservations, the market access and national treatment limitations that apply to establishments and investors of the CARIFORUM States in those activities. The lists are composed of the following elements:

   (a) A first column indicating the sector or sub-sector in which the commitment is assumed by the Party, and the scope of liberalisation to which the reservations apply.

   (b) A second column describing the applicable reservations.

   When the column referred to under (b) only includes Member State-specific reservations, Member States not mentioned therein undertake commitments in the sector concerned without reservations (the absence of Member State-specific reservations in a given sector is without prejudice to horizontal reservations or to sectoral EC-wide reservations that may apply).

   Sectors or sub-sectors not mentioned in the list below are not committed.

2. In identifying individual sectors and sub-sectors:

   (a) ISIC rev 3.1 means the International Standard Industrial Classification of all Economic Activities as set out in Statistical Office of the United Nations, Statistical Papers, Series M, No 4, *ISIC REV 3.1*, 2002.

   (b) CPC means the Central Products Classification as set out in Statistical Office of the United Nations, Statistical Papers, Series M, No 77, *CPC prov*, 1991.

   (c) CPC ver. 1.0 means the Central Products Classification as set out in Statistical Office of the United Nations, Statistical Papers, Series M, No 77, *CPC ver 1.0*, 1998.

3. The list below does not include measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures when they do not constitute a market access or a national treatment limitation within the meaning of Articles 67 and 68 of the Agreement. Those measures (e.g. need to obtain a license, universal service obligations, need to obtain recognition of qualifications in regulated sectors, need to pass specific examinations, including language examinations, non-discriminatory requirement that certain activities may not be carried out in environmental protected zones or areas of particular historic and artistic interest), even if not listed, apply in any case to investors of the other Party.

4. In accordance with Article 60(3) of the Agreement, the list below does not include measures concerning subsidies granted by the Parties.

5. In accordance with Article 67 of the Agreement non-discriminatory requirements as regards the types of legal form of an establishment are not included in the list below.

6. The rights and obligations arising from this list of commitments shall have no self-executing effect and thus confer no rights directly to individual natural persons or juridical persons.

(referred to in Article 83)

EC PARTY

1. The list of reservations below indicates the services sectors liberalised by the EC Party pursuant to Article 83(2) and 83 (3) and the specific discriminatory limitations which apply thereto. The lists are composed of the following elements:

   (a) A first column indicating the sector or sub-sector in which limitations apply.

   (b) A second column describing the applicable limitations.

   When no specific limitations, other than those specified in Title II of the Agreement, apply to both contractual service suppliers (CSS) and independent professionals (IP), 'none' is inscribed next to the relevant Member State(s).

2. In identifying individual sectors and sub-sectors, CPC means the Central Products Classification as set out in Statistical Office of the United Nations, Statistical Papers, Series M, No 77, *CPC prov*, 1991.

3. The list below does not include measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures, and measures regarding employment, work and social security conditions when they do not constitute a discriminatory limitation within the meaning of Article 83(2) and (3) of the Agreement. Those measures (e.g. need to obtain a license, need to obtain recognition of qualifications in regulated sectors, need to pass specific examinations, including language examinations, need to have a legal domicile where the activity is performed, need to comply with national regulations and practices concerning minimum wages and with collective wage agreements in the host country), even if not listed, apply in any case to contractual services suppliers and independent professionals of the other Party.

4. In accordance with Article 60(3) of the Agreement, the list below does not include measures concerning subsidies granted by the Parties.

5. The list below is without prejudice to the existence of public monopolies and exclusive rights as described in the list of commitments on establishment.

6. In those sectors where economic needs tests are applied, their main criteria will be the assessment of the relevant market situation in the Member State of the European Union or the region where the service is to be provided, including with respect to the number of, and the impact on, existing services suppliers.

7. The rights and obligations arising from this list of reservations shall have no self-executing effect and thus confer no rights directly to individual natural persons or juridical persons.

8. Commitments on contractual services suppliers and independent professionals do not apply in cases where the intent or effect of their temporary presence is to interfere with or otherwise affect the outcome of any labour/management dispute or negotiation.

1. This 'List of Commitments on Investment (Commercial Presence) in Economic Activities other than Services Sectors' (hereinafter referred to as the Schedule) is limited to non-service sectors as described by the International Standard Industrial Classification of all Economic Activities as set out by the Statistical Office of the United Nations (ISIC Rev. 3.1). It includes the following sectors:

   B. Fishing

   C. Mining and quarrying

   D. Manufacturing

   E. Production, transmission and distribution on own account of electricity, gas, steam and hot water

Only sectors in which there are reservations or limitations are listed but the Schedule covers all sub-sectors of the sectors listed above.

3. This Schedule includes all CARIFORUM States, except The Bahamas and Haiti, unless otherwise stated. 4. Subject to Article 238, the commitments listed in this Schedule apply only to the relations between Signatory CARIFORUM States on the one hand and the European Community and its Member States on the other and do not affect the rights and obligations of the Signatory CARIFORUM States arising from obligations under the Revised Treaty of Chaguaramas Establishing the Caribbean Community including the CARICOM Single Market and Economy, or the CARICOM-Dominican Republic Free Trade Agreement.

ANNEX IV F

LIST OF COMMITMENTS IN SERVICES SECTORS

(referred to in Articles 69, 78, 81 and 83)

CARIFORUM PARTY AND SIGNATORY CARIFORUM STATES

1. This 'List of Commitments in Services Sectors' (hereinafter referred to as the 'Schedule') is based on the UN Central Product Classification (CPC) list and the services sectoral classification list (MTN.GNS/W/120) used in GATS negotiations but also includes some service activities not covered by these classification schemes. The inclusion of two asterisks (**) indicates that the services specified constitute only a part of the total range of activities covered by the CPC concordance.

2. This Schedule is consistent with the GATS scheduling template and includes only those service activities in which the Signatory CARIFORUM States are undertaking commitments. With respect to market access and national treatment commitments, the different modes of supply are indicated by the following numbers:

   (1) Supply from the territory of a Party into the territory of the other Party (Mode 1);

   (2) Supply in the territory of a Party to the service consumer of the other Party (Mode 2);

   (3) Supply through commercial presence (Mode 3);

   (4) Supply through the presence of natural persons (Mode 4).

3. With regard to the categories of natural persons listed in Chapter 4 of Title II the following should be noted:

   Key Personnel and Graduate Trainees — where there is a commitment in Mode 3 there is an automatic commitment regarding temporary entry for these categories of persons, subject to an economic needs test, unless otherwise indicated.

   Contractual service suppliers (CSS) and independent professionals (IP) — commitments are undertaken only where specifically indicated in the Schedule by CSS or IP. Where a commitment on contractual service suppliers or independent professionals is included in this Schedule it is subject to the conditions stipulated in Article 83, unless otherwise stated.

4. Where there is an indication of 'None' for Mode 4 it means that there are no limitations or restrictions for all categories of natural persons except contractual service suppliers and independent professionals.

5. In those sectors in which economic needs tests (ENTs) are applied for Mode 4, the main criterion will be availability of persons with the requisite skills in the local labour market. With regard to other modes of supply, the main criteria for ENTs will be the assessment of the relevant market situation where the service is to be provided, with respect to the number of, and the impact on, existing service suppliers.

6. This Schedule includes all CARIFORUM States, except The Bahamas and Haiti, unless otherwise stated.

7. Subject to Article 238, the commitments listed in this Schedule apply only to the relations between the Signatory CARIFORUM States on the one hand and the European Communities and their Member States on the other and do not affect the rights and obligations of the Signatory CARIFORUM States arising from obligations under the Revised Treaty of Chaguaramas Establishing the Caribbean Community including the CARICOM Single Market and Economy, or the CARICOM-Dominican Republic Free Trade Agreement.

8. This Schedule of commitments cannot be construed as offering in any way the privatisation of public undertakings nor as preventing any Signatory CARIFORUM State from regulating any sector or economic activity in order to meet national policy objectives.

9. With regard to the economic activities covered in Chapters 2 and 3 of Title II, other than public services, without prejudice to the content of the list of commitments on commercial presence and on cross-border supply in this Annex, the Signatory CARIFORUM States shall maintain the conditions of market access and national treatment in the meaning of Articles 67 and 68, and Articles 76 and 77 applicable according to their respective legislation to services, service suppliers, investors and commercial presences of the EC Party at the time of the signature of this Agreement.

10. The Schedule of commitments may not include measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures when they do not constitute a market access or a national treatment limitation within the meaning of Articles 67 and 68, and 76 and 77 of the Agreement. Those measures (e.g. need to obtain a license, need to register with the Registrar of Companies, universal service obligations, need to obtain recognition of qualifications in regulated sectors, need to pass specific examinations, including language examinations, non-discriminatory requirement that certain activities may not be carried out in environmental protected zones or areas of particular historic and artistic interest), even if not listed, apply in any case to service suppliers of the other Party.

11. The rights and obligations arising from this Schedule of commitments shall have no self-executing effect and thus confer no rights directly to natural persons or juridical persons.

DEFINITION OF THE CONCEPT OF 'ORIGINATING PRODUCTS'

Article 2

General requirements

1. For the purpose of the CARIFORUM-EC Economic Partnership Agreement, hereinafter referred to as 'the Agreement', the following products shall be considered as originating in the EC Party:

(a) products wholly obtained in the EC Party within the meaning of Article 6 of this Protocol;

(b) products obtained in the EC Party incorporating materials which have not been wholly obtained there, provided that such materials have undergone sufficient working or processing in the EC Party within the meaning of Article 7.

2. For the purpose of the Agreement, the following products shall be considered as originating in the CARIFORUM States:

(a) products wholly obtained in the CARIFORUM States within the meaning of Article 6 of this Protocol;

(b) products obtained in CARIFORUM States incorporating materials which have not been wholly obtained there, provided that such materials have undergone sufficient working or processing in that CARIFORUM State within the meaning of Article 7.

3. For the purpose of implementing paragraph 2, the territories of the CARIFORUM States shall be considered as being one territory.

Originating products made up of materials wholly obtained or sufficiently worked or processed in two or more CARIFORUM States shall be considered as products originating in the CARIFORUM State where the last working or processing took place, provided the working or processing carried out there goes beyond that referred to in Article 8 of this Protocol.

4. For the products listed in Annex X and the products of tariff heading 1006, the provisions of paragraph 3 shall apply after 1 October 2015 and 1 January 2010 respectively.

Article 3

Cumulation in the EC Party

1. For the purpose of Article 2(1), materials originating in the CARIFORUM States, in the OCTs or in the other ACP States shall be considered as materials originating in the EC Party when incorporated into a product obtained there. It shall not be necessary that such materials have undergone sufficient working or processing, provided they have undergone working or processing going beyond that referred to in Article 8.

2. For the purpose of Article 2(1), working and processing carried out in the CARIFORUM States, in the OCTs or in the other ACP States shall be considered as having been carried out in the EC Party, when the materials undergo subsequent working or processing in the EC Party going beyond that referred to in Article 8.

3. The cumulation provided for in paragraphs 1 and 2 of this Article may only be applied with respect to the OCTs and the other ACP States provided that:

(a) the countries involved in the acquisition of the originating status and the country of destination have concluded an agreement on administrative cooperation which ensures a correct implementation of this Article;

(b) materials and products have acquired originating status by the application of the rules of origin identical to those given in this Protocol;

(c) the EC Party provides the CARIFORUM States, through the Commission of the European Communities, with details of agreements on administrative cooperation with the other countries or territories referred to in this Article. The Commission shall publish in the Official Journal of the European Union (C series) and the CARIFORUM States shall publish according to their own procedures the date on which the cumulation provided for in this article may be applied with those countries or territories listed in this Article which have fulfilled the necessary requirements.

Article 4

Cumulation in the CARIFORUM States

1. For the purpose of Article 2(2), materials originating in the EC Party, in the OCTs or in the other ACP States shall be considered as materials originating in the CARIFORUM States when incorporated into a product obtained there. It shall not be necessary that such materials have undergone sufficient working or processing, provided they have undergone working or processing going beyond that referred to in Article 8.

2. For the purpose of Article 2(2), working and processing carried out in the EC Party, in the OCTs or in the other ACP States shall be considered as having been carried out in the CARIFORUM States, when the materials undergo subsequent working or processing in the CARIFORUM States going beyond that referred to in Article 8.

3. The cumulation provided for in paragraphs 1 and 2 of this Article may only be applied with respect to the OCTs and the other ACP States provided that:

(a) the countries involved in the acquisition of the originating status and the country of destination have concluded an agreement on administrative cooperation which ensures a correct implementation of this Article;

(b) materials and products have acquired originating status by the application of the rules of origin identical to those given in this Protocol;

(c) the CARIFORUM States will provide the EC Party, through the Commission of the European Communities, with details of agreements on administrative cooperation with the other countries or territories referred to in this Article. The Commission shall publish in the *Official Journal of the European Union* (C series) and the CARIFORUM States shall publish according to their own procedures the date on which the cumulation provided for in this article may be applied with those countries or territories listed in this article which have fulfilled the necessary requirements.

4. Notwithstanding paragraphs 1 to 3, with regard to the products listed in Annex X and to the products of tariff heading 1006, the provisions of this Article shall apply after 1 October 2015 and 1 January 2010 respectively, and only when the materials used in the manufacture of such products are originating in, or the working or processing is carried out in other ACP States.

5. This Article shall not apply to products of Annex XII originating in South Africa. The cumulation provided for in this Article shall apply after 31 December 2009 for the products originating in South Africa listed in Annex XIII.

Article 5

Cumulation with neighbouring developing countries

1. At the request of the CARIFORUM States, materials originating in a neighbouring developing country listed in Annex VIII shall be considered as materials originating in a CARIFORUM State when incorporated into a product obtained there.

2. The requests shall be addressed to the Special Committee on Customs Cooperation and Trade Facilitation in accordance with Article 42.

3. It shall not be necessary that such materials have undergone sufficient working or processing, provided that:

(a) the working or processing carried out in the CARIFORUM State exceeds the operations listed in Article 8;

(b) the CARIFORUM States, the EC Party and the neighbouring developing countries concerned have concluded an agreement on adequate administrative cooperation procedures which will ensure correct implementation of this paragraph.

4. The Parties shall notify to the Special Committee on Customs Cooperation and Trade Facilitation the products to which the provisions of this Article shall not apply.

5. For the purpose of determining whether the products originate in the neighbouring developing country as defined in Annex VIII, the provisions of this Protocol shall apply.

Article 6

Wholly obtained products

1. The following shall be considered as wholly obtained in the territory of the CARIFORUM States or in the territory of the EC Party:

(a) mineral products extracted from their soil or from their seabed;

(b) fruit and vegetable products harvested there;

(c) live animals born and raised there;

(d) products from live animals raised there;

(e) (i) products obtained by hunting or fishing conducted there;

(ii) products of aquaculture, including mariculture, where the fish are born and raised there;

(f) products of sea fishing and other products taken from the sea outside the territorial waters of the EC Party or of a CARIFORUM State by their vessels;

(g) products made aboard their factory ships exclusively from products referred to in (f);

(h) used articles collected there fit only for the recovery of raw materials, including used tyres fit only for retreading or for use as waste;

(i) waste and scrap resulting from manufacturing operations conducted there;

(j) products extracted from marine soil or subsoil outside their territorial waters provided that they have sole rights to work that soil or subsoil;

(k) goods produced there exclusively from the products specified in (a) to (j).

2. The terms 'their vessels' and 'their factory ships' in paragraph 1(f) and (g) shall apply only to vessels and factory ships:

(a) which are registered in a Member State of the European Union or in a CARIFORUM State;

(b) which sail under the flag of a Member State of the European Union or of a CARIFORUM State;

(c) which meet one of the following conditions:

(i) they are at least 50 % owned by nationals of a Member State of the European Union or of a CARIFORUM State; or

(ii) they are owned by companies

— which have their head office and their main place of business in a Member State of the European Union or in a CARIFORUM State; and

— which are at least 50 % owned by a Member State of the European Union or by a CARIFORUM State, public entities or nationals of that State.

3. Notwithstanding the provisions of paragraph 2, the EC Party shall recognise, upon request of a CARIFORUM State, that vessels chartered or leased by operators of such CARIFORUM State be treated as 'their vessels' in order to undertake fisheries activities in its exclusive economic zone, provided that the charter or lease agreement, for which operators of the EC Party have been offered the right of first refusal, has been accepted by the Special Committee on Customs Cooperation and Trade Facilitation as providing adequate opportunities for developing the fishing capacity of the requesting CARIFORUM State and in particular as conferring on such CARIFORUM State the nautical and commercial responsibility for the chartered or leased vessels.

Article 7

Sufficiently worked or processed products

1. For the purposes of Article 2, products which are not wholly obtained are considered to be sufficiently worked or processed when the conditions set out in the List in Annex II are fulfilled.

2. The conditions referred to in paragraph 1 above indicate, for all products covered by the Agreement, the working or processing which must be carried out on non-originating materials used in manufacturing and apply only in relation to such materials. Accordingly, it follows that if a product, which has acquired originating status by fulfilling the conditions set out in the List is used in the manufacture of another product, the conditions applicable to the product in which it is incorporated do not apply to it, and no account shall be taken of the non-originating materials which may have been used in its manufacture.

3. Notwithstanding paragraph 1, non-originating materials which, according to the conditions set out in Annex II should not be used in the manufacture of a given product may nevertheless be used, provided that:

(a) their total value does not exceed 15 % of the ex-works price of the product;

(b) any of the percentages given in the List for the maximum value of non-originating materials are not exceeded through the application of this paragraph.

4. Paragraphs 1 to 3 shall apply except as provided in Article 8.

Article 8

Insufficient working or processing

1. Without prejudice to paragraph 2, the following operations shall be considered as insufficient working or processing to confer the status of originating products, whether or not the requirements of Article 7 are satisfied:

(a) operations to ensure the preservation of products in good condition during transport and storage;

(b) breaking-up and assembly of packages;

(c) washing, cleaning; removal of dust, oxide, oil, paint or other coverings;

(d) ironing or pressing of textiles;

(e) painting and polishing operations;

(f) husking, partial or total bleaching, polishing, and glazing of cereals and rice;

(g) operations to colour sugar or form sugar lumps; partial or total milling of crystal sugar ([1]);

(h) peeling, stoning and shelling, of fruits, nuts and vegetables;

(i) sharpening, simple grinding or simple cutting;

(j) sifting, screening, sorting, classifying, grading, matching (including the making-up of sets of articles);

(k) simple placing in bottles, cans, flasks, bags, cases, boxes, fixing on cards or boards and all other simple packaging operations;

(l) affixing or printing marks, labels, logos and other like distinguishing signs on products or their packaging;

(m) simple mixing of products, whether or not of different kinds; mixing of sugar with any other material ([2]);

(n) simple assembly of parts of articles to constitute a complete article or disassembly of products into parts;

(o) a combination of two or more operations specified in (a) to (n);

(p) slaughter of animals.

2. All operations carried out either in the EC Party or in the CARIFORUM States on a given product shall be considered together when determining whether the working or processing undergone by that product is to be regarded as insufficient within the meaning of paragraph 1.

Article 9

Unit of qualification

1. The unit of qualification for the application of the provisions of this Protocol shall be the particular product which is considered as the basic unit when determining classification using the nomenclature of the Harmonised System.

Accordingly, it follows that:

(a) when a product composed of a group or assembly of articles is classified under the terms of the Harmonised System in a single heading, the whole constitutes the unit of qualification;

(b) when a consignment consists of a number of identical products classified under the same heading of the Harmonised System, each product must be taken individually when applying the provisions of this Protocol.

2. Where, under General Rule 5 of the Harmonised System, packaging is included with the product for classification purposes, it shall be included for the purposes of determining origin.

Article 10

Accessories, spare parts and tools

Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle, which are part of the normal equipment and included in the price thereof or which are not separately invoiced, shall be regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

([1]) This is understood to mean the reduction of the size of the sugar particles as a result of grinding or milling.

([2]) For the purpose of applying this subparagraph and in relation to Article 7 (Sufficiently worked or processed products), the Parties agree that paragraph 2 of Article 8 means that the use of one or more materials already originating in the country of manufacture implies that a processing going beyond a 'minimal operation' has already been carried out in that country of manufacture.

Article 11

Sets

Sets, as defined in General Rule 3 of the Harmonised System, shall be regarded as originating when all component products are originating. Nevertheless, when a set is composed of originating and non-originating products, the set as a whole shall be regarded as originating, provided that the value of the non-originating products does not exceed 15 % of the ex-works price of the set.

Article 12

Neutral elements

In order to determine whether a product is originating, it shall not be necessary to determine the origin of the following which might be used in its manufacture:

(a) energy and fuel;

(b) plant and equipment;

(c) machines and tools;

(d) goods which do not enter and which are not intended to enter into the final composition of the product.

TITLE III

TERRITORIAL REQUIREMENTS

Article 13

Principle of territoriality

1. The conditions for acquiring originating status set out in Title II must be fulfilled without interruption in the CARIFORUM States or in the EC Party, except as provided for in Articles 3, 4 and 5.

2. Where originating goods exported from the CARIFORUM States or from the EC Party to another country are returned, except insofar as provided for in Article 3, 4 and 5, they must be considered as non-originating, unless it can be demonstrated to the satisfaction of the customs authorities that:

(a) the returned goods are the same goods as those exported; and

(b) they have not undergone any operation beyond that necessary to preserve them in good condition while in that country or while being exported.

Article 14

Direct transport

1. The preferential treatment provided for under the Agreement applies only to products which satisfy the requirements of this Protocol and which are transported directly between the territory of the CARIFORUM States and the EC Party without entering any other territory. However, products constituting one single consignment may be transported through other territories with, should the occasion arise, trans-shipment or temporary warehousing in such territories, provided that they remain under the surveillance of the customs authorities in the country of transit or warehousing and do not undergo operations other than unloading, reloading or any operation designed to preserve them in good condition.

Originating products may be transported by pipeline across territory other than that of a CARIFORUM State, of the EC Party or of an OCT.

2. Evidence that the conditions set out in paragraph 1 have been fulfilled shall be supplied to the customs authorities of the importing country by the production of:

(a) a single transport document covering the passage from the exporting country through the country of transit; or

(b) a certificate issued by the customs authorities of the country of transit:

(i) giving an exact description of the products;

(ii) stating the dates of unloading and reloading of the products and, where applicable, the names of the ships, or the other means of transport used;

and

(iii) certifying the conditions under which the products remained in the transit country; or

(c) failing these, any substantiating documents.

Article 15

Exhibitions

1. Originating products, sent from a CARIFORUM State or from the EC Party for exhibition in a country or territory other than those referred to in Articles 3, 4 and 5 and sold after the exhibition for importation into the EC Party or a CARIFORUM State shall benefit on importation from the provisions of the Agreement provided it is shown to the satisfaction of the customs authorities that:

(a) an exporter has consigned these products from a CARIFORUM State or the EC Party to the country in which the exhibition is held and has exhibited them there;

(b) the products have been sold or otherwise disposed of by that exporter to a person in a CARIFORUM State or in the EC Party;

(c) the products have been consigned during the exhibition or immediately thereafter in the state in which they were sent for exhibition;

and

(d) the products have not, since they were consigned for exhibition, been used for any purpose other than demonstration at the exhibition.

2. A proof of origin must be issued or made out in accordance with the provisions of Title IV and submitted to the customs authorities of the importing country in the normal manner. The name and address of the exhibition must be indicated thereon. Where necessary, additional documentary evidence of the conditions under which they have been exhibited may be required.

3. Paragraph 1 shall apply to any trade, industrial, agricultural or crafts exhibition, fair or similar public show or display which is not organised for private purposes in shops or business premises with a view to the sale of foreign products, and during which the products remain under customs control.

TITLE IV

PROOF OF ORIGIN

Article 16

General requirements

1. Products originating in a CARIFORUM State shall, on importation into the EC Party and products originating in the EC Party shall, on importation into a CARIFORUM State, benefit from the provisions of the Agreement upon submission of either:

(a) a movement certificate EUR.1, a specimen of which appears in Annex III; or

(b) in the cases specified in Article 21(1), a declaration, subsequently referred to as the 'invoice declaration', given by the exporter on an invoice, a delivery note or any other commercial document which describes the products concerned in sufficient detail to enable them to be identified; the text of the invoice declaration appears in Annex IV.

2. Notwithstanding paragraph 1, originating products within the meaning of this Protocol shall, in the cases specified in Article 26, benefit from the Agreement without it being necessary to submit any of the documents referred to above.

3. For the purpose of applying the provisions of this Title, the exporters shall endeavour to use a language common to both the CARIFORUM States and the EC Party.

Article 17

Procedure for the issue of a movement certificate EUR.1

1. A movement certificate EUR.1 shall be issued by the customs authorities of the exporting country on application having been made in writing by the exporter or, under the exporter's responsibility, by his authorised representative.

2. For this purpose, the exporter or his authorised representative shall fill out both the movement certificate EUR.1 and the application form, specimens of which appear in Annex III. These forms shall be completed in accordance with the provisions of this Protocol. If they are handwritten, they shall be completed in ink in printed characters. The description of the products must be given in the box reserved for this purpose without leaving any blank lines. Where the box is not completely filled, a horizontal line must be drawn below the last line of the description, the empty space being crossed through.

3. The exporter applying for the issue of a movement certificate EUR.1 shall be prepared to submit at any time, at the request of the customs authorities of the exporting country where the movement certificate EUR.1 is issued, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Protocol.

4. A movement certificate EUR.1 shall be issued by the customs authorities of a Member State of the European Union or of a CARIFORUM State if the products concerned can be considered as products originating in the EC Party or in a CARIFORUM State or in one of the other countries or territories referred to in Articles 3, 4 and 5 and fulfil the other requirements of this Protocol.

5. The issuing customs authorities shall take any steps necessary to verify the originating status of the products and the fulfilment of the other requirements of this Protocol. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate. The issuing customs authorities shall also ensure that the forms referred to in paragraph 2 are duly completed. In particular, they shall check whether the space reserved for the description of the products has been completed in such a manner as to exclude all possibility of fraudulent additions.

6. The date of issue of the movement certificate EUR.1 shall be indicated in Box 11 of the certificate.

7. A movement certificate EUR.1 shall be issued by the customs authorities and made available to the exporter as soon as actual exportation has been effected or ensured.

Article 18

Movement certificates EUR.1 issued retrospectively

1. Notwithstanding Article 17(7), a movement certificate EUR.1 may exceptionally be issued after exportation of the products to which it relates if:

(a) it was not issued at the time of exportation because of errors or involuntary omissions or special circumstances; or

(b) it is demonstrated to the satisfaction of the customs authorities that a movement certificate EUR.1 was issued but was not accepted at importation for technical reasons.

2. For the implementation of paragraph 1, the exporter must indicate in his application the place and date of exportation of the products to which the movement certificate EUR.1 relates, and state the reasons for his request.

3. The customs authorities may issue a movement certificate EUR.1 retrospectively only after verifying that the information supplied in the exporter's application agrees with that in the corresponding file.

4. Movement certificates EUR.1 issued retrospectively must be endorsed with the following phrase in English: 'ISSUED RETROSPECTIVELY'

5. The endorsement referred to in paragraph 4 shall be inserted in the 'Remarks' box of the movement certificate EUR.1.

Article 19

Issue of a duplicate movement certificate EUR.1

1. In the event of theft, loss or destruction of a movement certificate EUR.1, the exporter may apply to the customs authorities which issued it for a duplicate made out on the basis of the export documents in their possession.

2. The duplicate issued in this way must be endorsed with the following word in English:

'DUPLICATE'

3. The endorsement referred to in paragraph 2 shall be inserted in the 'Remarks' box of the duplicate movement certificate EUR.1.

4. The duplicate, which must bear the date of issue of the original movement certificate EUR.1, shall take effect as from that date.

Article 20

Issue of movement certificates EUR.1 on the basis of a proof of origin issued or made out previously

When originating products are placed under the control of a customs office in a CARIFORUM State or in the EC Party, it shall be possible to replace the original proof of origin by one or more movement certificates EUR.1 for the purpose of sending all or some of these products elsewhere within the CARIFORUM States or within the EC Party. The replacement movement certificate(s) EUR.1 shall be issued by the customs office under whose control the products are placed.

Article 21

Conditions for making out an invoice declaration

1. An invoice declaration as referred to in Article 16(1)(b) may be made out:

(a) by an approved exporter within the meaning of Article 22; or

(b) by any exporter for any consignment consisting of one or more packages containing originating products whose total value does not exceed EUR 6 000.

2. An invoice declaration may be made out if the products concerned can be considered as products originating in the CARIFORUM States or in the EC Party and fulfil the other requirements of this Protocol.

3. The exporter making out an invoice declaration shall be prepared to submit at any time, at the request of the customs authorities of the exporting country, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Protocol.

4. An invoice declaration shall be made out by the exporter by typing, stamping or printing on the invoice, the delivery note or another commercial document, the declaration, the text of which appears in Annex IV to this Protocol, using one of the linguistic versions set out in that Annex and in accordance with the provisions of the domestic law of the exporting country. If the declaration is handwritten, it shall be written in ink in printed characters.

5. Invoice declarations shall bear the original signature of the exporter in manuscript. However, an approved exporter within the meaning of Article 22 shall not be required to sign such declarations provided that he gives the customs authorities of the exporting country a written undertaking that he accepts full responsibility for any invoice declaration which identifies him as if it had been signed in manuscript by him.

6. An invoice declaration may be made out by the exporter when the products to which it relates are exported, or after exportation on condition that it is presented in the importing country no longer than two years after the importation of the products to which it relates.

Article 22

Approved exporter

1. The customs authorities of the exporting country may authorise any exporter who makes frequent shipments of products under the trade cooperation provisions of the Agreement to make out invoice declarations irrespective of the value of the products concerned. An exporter seeking such authorisation must offer to the satisfaction of the customs authorities all guarantees necessary to verify the originating status of the products as well as the fulfilment of the other requirements of this Protocol.

2. The customs authorities may grant the status of approved exporter subject to any conditions which they consider appropriate.

3. The customs authorities shall grant to the approved exporter a customs authorisation number which shall appear on the invoice declaration.

4. The customs authorities shall monitor the use of the authorisation by the approved exporter.

5. The customs authorities may withdraw the authorisation at any time. They shall do so where the approved exporter no longer offers the guarantees referred to in paragraph 1, does not fulfil the conditions referred to in paragraph 2 or otherwise makes an incorrect use of the authorisation.

Article 23

Validity of proof of origin

1. A proof of origin shall be valid for ten months from the date of issue in the exporting country, and must be submitted within the said period to the customs authorities of the importing country.

2. Proof of origin which are submitted to the customs authorities of the importing country after the final date for presentation specified in paragraph 1 may be accepted for the purpose of applying preferential treatment, where the failure to submit these documents by the final date set is due to exceptional circumstances.

3. In other cases of belated presentation, the customs authorities of the importing country may accept the proofs of origin where the products have been submitted before the said final date.

Article 24

Submission of proof of origin

Proof of origin shall be submitted to the customs authorities of the importing country in accordance with the procedures applicable in that country. The said authorities may require a translation of a proof of origin and may also require the import declaration to be accompanied by a statement from the importer to the effect that the products meet the conditions required for the implementation of the Agreement.

Article 25

Importation by instalments

Where, at the request of the importer and on the conditions laid down by the customs authorities of the importing country, dismantled or non-assembled products within the meaning of General Rule 2(a) of the Harmonised System falling within Sections XVI and XVII or heading 7 308 and 9 406 of the Harmonised System are imported by instalments, a single proof of origin for such products shall be submitted to the customs authorities upon importation of the first instalment.

Article 26

Exemptions from proof of origin

1. Products sent as small packages from private persons to private persons or forming part of travellers' personal luggage shall be admitted as originating products without requiring the submission of a proof of origin, provided that such products are not imported by way of trade and have been declared as meeting the requirements of this Protocol and where there is no doubt as to the veracity of such a declaration. In the case of products sent by post, this declaration can be made on customs declaration CN22/CN23 or on a sheet of paper annexed to that document.

2. Imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is in view.

3. Furthermore, the total value of these products shall not exceed EUR 500 in the case of small packages or EUR 1 200 in the case of products forming part of travellers' personal luggage.

Article 27

Information procedure for cumulation purposes

1. When Articles 2(3), 3(1) and 4(1) are applied, the evidence of originating status within the meaning of this Protocol of the materials coming from a CARIFORUM State, from the EC Party, from another ACP State or from an OCT shall be given by a movement certificate EUR 1 or by the supplier's declaration, a specimen of which appears in Annex V A to this Protocol, given by the exporter in the State or in the EC Party from which the materials came.

2. When Articles 2(3), 3(2) and 4(2) are applied, the evidence of the working or processing carried out in a CARIFORUM State, in the EC Party, in another ACP State or in an OCT shall be given by the supplier's declaration, a specimen of which appears in Annex V A and Annex V B to this Protocol, given by the exporter in the State or in the EC Party from which the materials came.

3. A separate supplier's declaration shall be made up by the supplier for each consignment of material on the commercial invoice related to that shipment or in an annex to that invoice, or on a delivery note or other commercial document related to that shipment which describes the materials concerned in sufficient detail to enable them to be identified.

4. The supplier's declaration may be made out on a pre-printed form.

5. The suppliers' declarations shall bear the original signature of the supplier in manuscript. However, where the invoice and the supplier's declaration are established using electronic data-processing methods, the supplier's declaration need not be signed in manuscript provided the responsible official in the supplying company is identified to the satisfaction of the

customs authorities in the State where the suppliers' declarations are established. The said customs authorities may lay down conditions for the implementation of this paragraph.

6. The supplier's declarations shall be submitted to the customs authorities in the exporting country requested to issue the movement certificate EUR 1.

7. The supplier making out a declaration must be prepared to submit at any time, at the request of the customs authorities of the country where the declaration is made out, all appropriate documents proving that the information given on this declaration is correct.

8. Suppliers' declarations made and information certificates issued before the date of application of this Protocol in accordance with Article 26 of Protocol 1 to the Cotonou Agreement shall remain valid.

Article 28

Supporting documents

The documents referred to in Articles 17(3) and 21(3) used for the purpose of proving that products covered by a movement certificate EUR.1 or an invoice declaration can be considered as products originating in a CARIFORUM State, in the EC Party or in one of the other countries or territories referred to in Articles 3, 4 and 5 and fulfil the other requirements of this Protocol may consist *inter alia* of the following:

(a) direct evidence of the processes carried out by the exporter or supplier to obtain the goods concerned, contained for example in his accounts or internal bookkeeping;

(b) documents proving the originating status of materials used, issued or made out in a CARIFORUM State, in the EC Party or in one of the other countries or territories referred to in Articles 3, 4 and 5 where these documents are used in accordance with domestic law;

(c) documents proving the working or processing of materials in the CARIFORUM States, in the EC Party or in one of the other countries or territories referred to in Articles 3 and 4 issued or made out in a CARIFORUM State, in the EC Party or in one of the other countries or territories referred to in Articles 3 and 4 where these documents are used in accordance with domestic law;

(d) movement certificates EUR.1 or invoice declarations proving the originating status of materials used, issued or made out in the CARIFORUM States, in the EC Party or in one of the other countries or territories referred to in Articles 3, 4 and 5 and in accordance with this Protocol.

Article 29

Preservation of proof of origin and supporting documents

1. The exporter applying for the issue of a movement certificate EUR.1 shall keep for at least three years the documents referred to in Article 17(3).

2. The exporter making out an invoice declaration shall keep for at least three years a copy of this invoice declaration as well as the documents referred to in Article 21(3).

3. The supplier making out a supplier's declaration shall keep for at least three years copies of the declaration and of the invoice, delivery notes or other commercial document to which this declaration is annexed as well as the documents referred to in Article 27(7).

4. The customs authorities of the exporting country issuing a movement certificate EUR.1 shall keep for at least three years the application form referred to in Article 17(2).

5. The customs authorities of the importing country shall keep for at least three years the movement certificates EUR.1 and the invoice declarations submitted to them.

Article 30

Discrepancies and formal errors

1. The discovery of slight discrepancies between the statements made in the proof of origin and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the products shall not ipso facto render the proof of origin null and void if it is duly established that this document does correspond to the products submitted.

2. Obvious formal errors such as typing errors on a proof of origin should not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.

TITLE V

ARRANGEMENTS FOR ADMINISTRATIVE COOPERATION

Article 31

Administrative conditions for products to benefit from the Agreement

Products originating within the meaning of this Protocol in the CARIFORUM States or in the EC Party shall benefit from the preferences resulting from the Agreement only on condition that the necessary arrangements, structures and systems required for the implementation and enforcement of the rules and procedures laid down in this Protocol are in place.

Article 32

Notification of information related to customs authorities

1. The CARIFORUM States and the Member States of the European Union shall provide each other, through the Commission of the European Communities, with the addresses of the customs authorities responsible for issuing and verifying of movement certificates EUR.1 and invoice declarations or supplier's declarations, and with specimen impressions of the stamps used in their customs offices for the issue of these certificates.

Movement certificates EUR.1 and invoice declarations or supplier's declarations shall be accepted for the purpose of applying preferential treatment from the date the information is received by the Commission of the European Communities.

2. The CARIFORUM States and the Member States of the European Union shall inform each other through the Commission of the European Communities immediately whenever there are any changes to the information referred to in paragraph 1.

Article 33

Mutual assistance

In order to ensure the proper application of this Protocol, the EC Party, the CARIFORUM States and the other countries referred to in Articles 3, 4 and 5 shall assist each other, through the competent customs administrations, in checking the authenticity of the movement certificates EUR.1, the invoice declarations or the supplier's declarations and the correctness of the information given in these documents.

The authorities consulted shall furnish the relevant information concerning the conditions under which the product has been made, indicating especially the conditions in which the rules of origin have been respected in the various CARIFORUM States, Member States of the European Union and other countries referred to in Articles 3, 4 and 5 concerned.

Article 34

Verification of proof of origin

1. Subsequent verifications of proof of origin shall be carried out at random or based on risk analysis or whenever the customs authorities of the importing country have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfilment of the other requirements of this Protocol.

2. For the purposes of implementing the provisions of paragraph 1, the customs authorities of the importing country shall return the movement certificate EUR.1 and the invoice, if it has been submitted, the invoice declaration, or a copy of these documents, to the customs authorities of the exporting country giving, where appropriate, the reasons for the request for verification. Any documents and information obtained suggesting that the information given on the proof of origin is incorrect shall be forwarded in support of the request for verification.

3. The verification shall be carried out by the customs authorities of the exporting country. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate.

4. If the customs authorities of the importing country decide to suspend the granting of preferential treatment to the products concerned while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.

5. The customs authorities requesting the verification shall be informed of the results of this verification as soon as possible. These results must indicate clearly whether the documents are authentic and whether the products concerned can be considered as products originating in a CARIFORUM State, in the EC Party or in one of the other countries referred to in Article 3, 4 and 5 and fulfil the other requirements of this Protocol.

6. If in cases of reasonable doubt there is no reply within ten months of the date of the verification request or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting customs authorities shall, except in exceptional circumstances, refuse entitlement to the preferences.

7. Where the verification procedure or any other available information appears to indicate that the provisions of this Protocol are being contravened, the exporting country on its own initiative or at the request of the importing country shall carry out appropriate enquires or arrange for such enquiries to be carried out with due urgency to identify and prevent such contraventions and for this purpose the exporting country concerned may invite the participation of the importing country in these enquiries.

Article 35

Verification of suppliers' declarations

1. Verification of suppliers' declarations shall be carried out at random or based on risk analysis or whenever the customs authorities of the importing State have reasonable doubt as to the authenticity of the document or the accuracy or completeness of the information concerning the true origin of the materials in question.

2. The customs authorities to which a supplier's declaration is submitted may request the customs authorities of the State where the declaration was made to issue an information certificate, a specimen of which appears in Annex VI to this Protocol. Alternatively, the customs authorities to which a supplier's declaration is submitted may request the exporter to produce an information certificate issued by the customs authorities of the State where the declaration was made.

A copy of the information certificate shall be preserved by the office which has issued it for at least three years.

3. The customs authorities requesting the verification shall be informed of the results thereof as soon as possible. The results must indicate clearly whether the information given in the supplier's declaration is correct and make it possible for the

customs authorities to determine whether and to what extent this supplier's declaration could be taken into account for issuing a movement certificate EUR.1 or for making out an invoice declaration.

4. The verification shall be carried out by the customs authorities of the country where the supplier's declaration was made out. For this purpose, they shall have the right to call for any evidence or to carry out any inspection of the supplier's account or any other check which they consider appropriate in order to verify the correctness of any supplier's declaration.

5. Any movement certificate EUR.1 or invoice declaration issued or made out on the basis of an incorrect supplier's declaration shall be considered null and void.

Article 36

Dispute settlement

Where disputes arise in relation to the verification procedures of Articles 34 and 35 which cannot be settled between the customs authorities requesting a verification and the customs authorities responsible for carrying out this verification or where they raise a question as to the interpretation of this Protocol, they shall be submitted to the Special Committee on Customs Cooperation and Trade Facilitation.

In all cases the settlement of disputes between the importer and the customs authorities of the importing country shall take place under the legislation of that country.

Article 37

Penalties

Penalties shall be imposed on any person who draws up, or causes to be drawn up, a document which contains incorrect information for the purpose of obtaining a preferential treatment for products.

Article 38

Free zones

1. The CARIFORUM States and the EC Party shall take all necessary steps to ensure that products traded under cover of a proof of origin or a supplier's declaration and which in the course of transport use a free zone situated in their territory, are not substituted by other goods and do not undergo handling other than normal operations designed to prevent their deterioration.

2. By means of an exemption to the provisions contained in paragraph 1, when originating products are imported into a free zone under cover of a proof of origin and undergo treatment or processing, the authorities concerned shall issue a new movement certificate EUR.1 at the exporter's request, if the treatment or processing undergone complies with the provisions of this Protocol.

Article 39

Derogations

1. Derogations from this Protocol may be adopted by the Special Committee on Customs Cooperation and Trade Facilitation, hereafter in this Article referred to as 'the Committee', in favour of products exported from the CARIFORUM States.

2. Derogations from this Protocol may be adopted where the development of existing industries or the creation of new industries in the CARIFORUM States justifies the adoption of such derogations.

3. The CARIFORUM State or States concerned shall, either before or when the request for derogation is submitted to the Committee, notify the EC Party of its request for a derogation together with the reasons for the request in accordance with paragraph 5.

4. The EC Party shall respond positively to all the CARIFORUM States' requests which are duly justified in conformity with this Article and which cannot cause serious injury to an established EC Party industry.

5. In order to facilitate the examination by the Committee of requests for derogation, the CARIFORUM State or States making the request shall, by means of the form given in Annex VII to this Protocol, furnish in support of their request the fullest possible information covering in particular the following:

— description of the finished product,

— nature and quantity of materials originating in third countries,

— nature and quantity of materials originating in CARIFORUM States or the countries or territories referred to in Articles 3 and 4, or the materials which have been processed in these countries or territories,

— manufacturing processes,

— added value achieved,

— number of employees in the enterprise concerned,

— anticipated volume of exports to the EC Party,

— other possible sources of supply for raw materials,

— reasons for the duration requested in the light of efforts made to find new sources of supply,

— other observations.

The Committee may modify the form.

6. The examination of requests for derogation shall in particular take into account:

(a) the level of development or the geographical situation of the CARIFORUM State or States concerned;

(b) cases where the application of the existing rules of origin would significantly affect the ability of an existing industry in a CARIFORUM State or States to continue their exports to the EC Party, with particular reference to cases where this could lead to cessation of its activities;

(c) specific cases where it can be clearly demonstrated that significant investment in an industry could be deterred by the rules of origin and where a derogation favouring the realisation of the investment programme would enable these rules to be satisfied by stages.

7. In every case an examination shall be made to ascertain whether the rules relating to cumulation of origin do not provide a solution to the problem.

8. The Committee shall take steps necessary to ensure that a decision on a request for derogation is reached as soon as possible and, in any case, not later than seventy-five working days after the request is received by the EC Party. If the EC Party does not inform the CARIFORUM State of its position on the request within this period, the request shall be deemed to have been accepted.

9. (a) The derogation shall be valid for a period, generally of five years, to be determined by the Committee.

(b) The derogation decision may provide for renewals without a new decision of the Committee being necessary, provided that the CARIFORUM State or States concerned submit, three months before the end of each period, proof that they are still unable to meet the conditions of this Protocol which have been derogated from.

If any objection is made to the extension, the Committee shall examine it as soon as possible and decide whether to prolong the derogation. The Committee shall proceed as provided for in paragraph 8. All necessary measures shall be taken to avoid interruptions in the application of the derogation.

(c) In the periods referred to in subparagraphs (a) and (b), the Committee may review the terms for implementing the derogation should a significant change be found to have taken place in the substantive factors governing the decision to grant the derogation. On conclusion of its review the Committee may decide to amend the terms of its decision as regards the scope of derogation or any other condition previously laid down.

TITLE VI

CEUTA AND MELILLA

Article 40

Special conditions

1. The term 'EC Party' used in this Protocol does not cover Ceuta and Melilla. The term 'products originating in the EC Party' does not cover products originating in Ceuta and Melilla.

2. The provisions of this Protocol shall apply *mutatis mutandis* in determining whether products may be deemed as originating in a CARIFORUM State when imported into Ceuta and Melilla.

3. Where products wholly obtained in Ceuta, Melilla or in the EC Party undergo working and processing in a CARIFORUM State, they shall be considered as having been wholly obtained in a CARIFORUM State.

4. Working or processing carried out in Ceuta, Melilla or in the EC Party shall be considered as having been carried out in a CARIFORUM State, when materials undergo further working or processing in a CARIFORUM State.

5. For the purpose of implementing paragraphs 3 and 4, the insufficient operations listed in Article 8 of this Protocol shall not be considered as working or processing.

6. Ceuta and Melilla shall be considered as a single territory.

TITLE VII

FINAL PROVISIONS

Article 41

Amendment of the Protocol

The Joint CARIFORUM-EC Council may decide to amend the provisions of this Protocol.

Article 42

Tasks of the Special Committee on Customs Cooperation and Trade Facilitation

In accordance with the provisions of Article 36 of the Agreement the Special Committee on Customs Cooperation and Trade Facilitation shall:

(a) take decisions on cumulation under the conditions laid down in Article 5;

(b) take decisions on derogations from this Protocol under the conditions laid down in Article 39;

(c) monitor the implementation and the administration of the provisions of this Protocol.

Article 43

Review

The Parties shall review the provisions of paragraph 4 of Article 2 and of paragraph 4 of Article 4 after three years from the signature of the Agreement with a view to reducing the products listed in Annex X to this Protocol.

Article 44

Annexes

The Annexes to this Protocol shall form an integral part thereof.

ANNEX I to Protocol I

Introductory notes to the list in Annex II [1]

Note 1:

The list sets out the conditions required for all products to be considered as sufficiently worked or processed within the meaning of Article 7 of the Protocol.

Note 2:

1. The first two columns in the list describe the product obtained. The first column gives the heading number or chapter number used in the Harmonised System and the second column gives the description of goods used in that system for that heading or chapter. For each entry in the first two columns a rule is specified in columns 3 or 4. Where, in some cases, the entry in the first column is preceded by an 'ex', this signifies that the rules in columns 3 or 4 apply only to the part of that heading as described in column 2.

2. Where several heading numbers are grouped together in column 1 or a chapter number is given and the description of products in column 2 is therefore given in general terms, the adjacent rules in columns 3 or 4 apply to all products which, under the Harmonised System, are classified in headings of the chapter or in any of the headings grouped together in column 1.

3. Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rules in columns 3 or 4.

4. Where, for an entry in the first two columns, a rule is specified in both columns 3 and 4, the exporter may opt, as an alternative, to apply either the rule set out in column 3 or that set out in column 4. If no origin rule is given in column 4, the rule set out in column 3 has to be applied.

Note 3:

1. The provisions of Article 7 of the Protocol concerning products having acquired originating status which are used in the manufacture of other products apply regardless of whether this status has been acquired inside the factory where these products are used or in another factory in the EC Party or in the CARIFORUM States.

   Example:

   An engine of heading No 8407, for which the rule states that the value of the non-originating materials which may be incorporated may not exceed 40 % of the ex-works price, is made from 'other alloy steel roughly shaped by forging' of heading No ex 7224.

   If this forging has been forged in the EC Party from a non-originating ingot, it has already acquired originating status by virtue of the rule for heading No ex 7224 in the list. The forging can then count as originating in the value calculation for the engine regardless of whether it was produced in the same factory or in another factory in the EC Party. The value of the non-originating ingot is thus not taken into account when adding up the value of the non-originating materials used.

2. The rule in the list represents the minimum amount of working or processing required and the carrying out of more working or processing also confers originating status; conversely, the carrying out of less working or processing cannot confer originating status. Therefore, if a rule provides that non-originating material at a certain level of manufacture may be used, the use of such material at an earlier stage of manufacture is allowed and the use of such material at a later stage is not.

3. Without prejudice to Note 3.2 where a rule states that 'materials of any heading' may be used, materials of the same heading as the product may also be used, subject, however, to any specific limitations which may also be contained in the rule. However, the expression 'manufacture from materials of any heading, including other materials of heading No ...' means that only materials classified in the same heading as the product of a different description than that of the product as given in column 2 of the list may be used.

4. When a rule in the list specifies that a product may be manufactured from more than one material, this means that any one or more materials may be used. It does not require that all be used.

   Example:

   The rule for fabrics of heading Nos 5208 to 5212 provides that natural fibres may be used and that chemical materials, among other materials, may also be used. This does not mean that both have to be used; it is possible to use one or the other or both.

[1] All examples are given for the purpose of explanation only. They are not legally binding.

5. Where a rule in the list specifies that a product must be manufactured from a particular material, the condition obviously does not prevent the use of other materials which, because of their inherent nature, cannot satisfy the rule. (See also Note 6.3 below in relation to textiles).

Example:

The rule for prepared foods of heading No 1904 which specifically excludes the use of cereals and their derivatives does not prevent the use of mineral salts, chemicals and other additives which are not products from cereals.

However, this does not apply to products which, although they cannot be manufactured from the particular materials specified in the list, can be produced from a material of the same nature at an earlier stage of manufacture.

Example:

In the case of an article of apparel of ex Chapter 62 made from non-woven materials, if the use of only non-originating yarn is allowed for this class of article, it is not possible to start from non-woven cloth — even if non-woven cloth cannot normally be made from yarn. In such cases, the starting material would normally be at the stage before yarn — that is the fibre stage.

6. Where, in a rule in the list, two percentages are given for the maximum value of non-originating materials that can be used, then these percentages may not be added together. In other words, the maximum value of all the non-originating materials used may never exceed the highest of the percentages given. Furthermore, the individual percentages must not be exceeded in relation to the particular materials they apply to.

Note 4:

1. The term 'natural fibres' is used in the list to refer to fibres other than artificial or synthetic fibres. It is restricted to the stages before spinning takes place, including waste, and, unless otherwise specified, includes fibres that have been carded, combed or otherwise processed but not spun.

2. The term 'natural fibres' includes horsehair of heading No 0503, silk of heading Nos 5002 and 5003 as well as the wool fibres, fine or coarse animal hair of heading Nos 5101 to 5105, the cotton fibres of heading Nos 5201 to 5203 and the other vegetable fibres of heading Nos 5301 to 5305.

3. The terms 'textile pulp', 'chemical materials' and 'paper-making materials' are used in the list to describe the materials not classified in Chapters 50 to 63, which can be used to manufacture artificial, synthetic or paper fibres or yarns.

4. The term 'man-made staple fibres' is used in the list to refer to synthetic or artificial filament tow, staple fibres or waste, of heading Nos 5501 to 5507.

Note 5:

1. Where for a given product in the list a reference is made to this note, the conditions set out in column 3 shall not be applied to any basic textile materials, used in the manufacture of this product, which, taken together, represent 10 % or less of the total weight of all the basic textile materials used. (See also Notes 5.3 and 5.4 below).

2. However, the tolerance mentioned in Note 5.1 may only be applied to mixed products which have been made from two or more basic textile materials.

The following are the basic textile materials:

I. silk

II. wool

III. coarse animal hair

IV. fine animal hair

V. horsehair

VI. cotton

VII. paper-making materials and paper

VIII. flax

IX. true hemp

X. jute and other textile bast fibres

XI. sisal and other textile fibres of the genus Agave

XII. coconut, abaca, ramie and other vegetable textile fibres

XIII. synthetic man-made filaments

XIV. artificial man-made filaments

XV. current conducting filaments

XVI. synthetic man-made staple fibres of polypropylene

XVII. synthetic man-made staple fibres of polyester

XVIII. synthetic man-made staple fibres of polyamide

XIX. synthetic man-made staple fibres of polyacrylonitrile

XX. synthetic man-made staple fibres of polyimide

XXI. synthetic man-made staple fibres of polytetrafluoroethylene

XXII. synthetic man-made staple fibres of polyphenylene sulphide

XXIII. synthetic man-made staple fibres of polyvinyl chloride

XXIV. other synthetic man-made staple fibres

XXV. artificial man-made staple fibres of viscose

XXVI. other artificial man-made staple fibres

XXVII. yarn made of polyurethane segmented with flexible segments of polyether whether or not gimped

XXVIII. yarn made of polyurethane segmented with flexible segments of polyester whether or not gimped

XXIX. products of heading No 5605 (metallised yarn) incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film

XXX. other products of heading No 5605.

Example:

A yarn of heading No 5205 made from cotton fibres of heading No 5203 and synthetic staple fibres of heading No 5506 is a mixed yarn. Therefore, non-originating synthetic staple fibres that do not satisfy the origin rules (which require manufacture from chemical materials or textile pulp) may be used up to a weight of 10 % of the yarn.

Example:

A woollen fabric of heading No 5112 made from woollen yarn of heading No 5107 and synthetic yarn of staple fibres of heading No 5509 is a mixed fabric. Therefore synthetic yarn which does not satisfy the origin rules (which require manufacture from chemical materials or textile pulp) or woollen yarn that does not satisfy the origin rules (which require manufacture from natural fibres, not carded or combed or otherwise prepared for spinning) or a combination of the two may be used provided their total weight does not exceed 10 % of the weight of the fabric.

Example:

Tufted textile fabric of heading No 5802 made from cotton yarn of heading No 5205 and cotton fabric of heading No 5210 is only a mixed product if the cotton fabric is itself a mixed fabric being made from yarns classified in two separate headings or if the cotton yarns used are themselves mixtures.

Example:

If the tufted textile fabric concerned had been made from cotton yarn of heading No 5205 and synthetic fabric of heading No 5407, then, obviously, the yarns used are two separate basic textile materials and the tufted textile fabric is accordingly a mixed product.

3. In the case of products incorporating 'yarn made of polyurethane segmented with flexible segments of polyether whether or not gimped' this tolerance is 20 % in respect of this yarn.

4. In the case of products incorporating 'strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of an adhesive between two layers of plastic film', this tolerance is 30 % in respect of this strip.

Note 6:

1. In the case of those textile products, which are marked in the list by a footnote referring to this Introductory Note, textile trimmings and accessories which do not satisfy the rule set out in the list in column 3 for the made up products concerned may be used provided that their weight does not exceed 10 % of the total weight of all the textile materials incorporated.

   Textile trimmings and accessories are those classified in Chapters 50 to 63. Linings and interlinings are not be regarded as trimmings or accessories.

2. Any non-textile trimmings and accessories or other materials used which contain textiles do not have to satisfy the conditions set out in column 3 even though they fall outside the scope of Note 3.5.

3. In accordance with Note 3.5, any non-originating non-textile trimmings and accessories or other product, which do not contain any textiles, may, anyway, be used freely where they cannot be made from the materials listed in column 3.

   For example, if a rule in the list says that for a particular textile item, such as a blouse, yarn must be used, this does not prevent the use of metal items, such as buttons, because they cannot be made from textile materials.

4. Where a percentage rule applies, the value of trimmings and accessories must be taken into account when calculating the value of the non-originating materials incorporated.

Note 7:

1. For the purposes of heading Nos ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, the 'specific processes' are the following:

   (a) vacuum distillation;

   (b) redistillation by a very thorough fractionation process ([1]);

   (c) cracking;

   (d) reforming;

   (e) extraction by means of selective solvents;

   (f) the process comprising all the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolorisation and purification with naturally active earth, activated earth, activated charcoal or bauxite;

   (g) polymerisation;

   (h) alkylation;

   (i) isomerisation.

2. For the purposes of heading Nos 2710, 2711 and 2712, the 'specific processes' are the following:

   (a) vacuum distillation;

   (b) redistillation by a very thorough fractionation process ([1])

   (c) cracking;

   (d) reforming;

   (e) extraction by means of selective solvents;

([1]) For the purpose of subheadings 2712 90 31 to 2712 90 39, the term 'crude' shall be taken to apply to products of a natural colour higher than 3 by the ASTM D 1500 method, if their viscosity at 100 °C is 9×10^{-6} m^2 s^{-1} or higher by ASTM D 445 method.

(f) the process comprising all the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolorisation and purification with naturally active earth, activated earth, activated charcoal or bauxite;

(g) polymerisation;

(h) alkylation;

(i) isomerisation;

(j) in respect of heavy oils falling within heading No ex 2710 only, desulphurisation with hydrogen resulting in a reduction of at least 85 % of the sulphur content of the products processed (ASTM D 1266-59 T method);

(k) in respect of products falling within heading No ex 2710 only, deparaffining by a process other than filtering;

(l) in respect of heavy oils falling within heading No ex 2710 only, treatment with hydrogen at a pressure of more than 20 bar and a temperature of more than 250 °C with the use of a catalyst, other than to effect desulphurisation, when the hydrogen constitutes an active element in a chemical reaction. The further treatment with hydrogen of lubricating oils of heading No ex 2710 (e.g. hydrofinishing or decolorisation) in order, more especially, to improve colour or stability shall not, however, be deemed to be a specific process;

(m) in respect of fuel oils falling within heading No ex 2710 only, atmospheric distillation, on condition that less than 30 % of these products distils, by volume, including losses, at 300 °C by the ASTM D 86 method;

(n) in respect of heavy oils other than gas oils and fuel oils falling within heading No ex 2710 only, treatment by means of a high-frequency electrical brush-discharge.

For the purposes of heading Nos ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, simple operations such as cleaning, decanting, desalting, water separation, filtering, colouring, marking, obtaining a sulphur content as a result of mixing products with different sulphur contents, any combination of these operations or like operations do not confer origin.

PROTOCOL II

On mutual administrative assistance in customs matters

Article 1

Definitions

For the purposes of this Protocol:

(a) 'customs legislation' means any legal or regulatory provisions applicable in the territories of the Parties, governing the import, export and transit of goods and their placing under any other customs regime or procedure, including measures of prohibition, restriction and control;

(b) 'Customs authority' means the customs administrations of the EC Party and CARIFORUM States responsible for applying the customs legislation and any other authorities empowered under national law to apply certain customs legislation.

(c) 'applicant authority' means a customs authority which has been designated by a Signatory CARIFORUM State or the EC Party for this purpose and which makes a request for assistance on the basis of this Protocol;

(d) 'requested authority' means a customs authority which has been designated by a Party or a Signatory CARIFORUM State for this purpose and which receives a request for assistance on the basis of this Protocol;

(e) 'personal data' mean any information relating to an identified or identifiable individual;

(f) 'operation in breach of customs legislation' means any violation or attempted violation of customs legislation.

Article 2

Scope

1. The Parties and the Signatory CARIFORUM States shall assist each other, in the areas within their competence, in the manner and under the conditions laid down in this Protocol, to ensure the correct application of the customs legislation, in particular by preventing, investigating and combating operations in breach of that legislation.

2. Assistance in customs matters, as provided for in this Protocol, shall apply to customs authorities of the Parties and the Signatory CARIFORUM States which are competent for the application of this Protocol. It shall not prejudice the rules governing mutual assistance in criminal matters nor shall it cover information obtained under powers exercised at the request of a judicial authority, except where communication of such information is authorised by that authority.

3. Assistance to recover duties, taxes or fines is not covered by this Protocol.

Article 3

Assistance on request

1. At the request of the applicant authority, the requested authority shall provide it with all relevant information which may enable it to ensure that customs legislation is correctly applied, including information regarding activities noted or planned which are or could be operations in breach of customs legislation.

2. At the request of the applicant authority, the requested authority shall inform it:

(a) whether goods exported from the territory of the CARIFORUM States or the EC Party have been properly imported into the territory of the other Party, specifying, where appropriate, the customs procedure applied to the goods;

(b) whether goods imported into the territory of the CARIFORUM States or the EC Party have been properly exported from the territory of the other Party, specifying, where appropriate, the customs procedure applied to the goods.

3. At the request of the applicant authority, the requested authority shall, within the framework of its legal or regulatory provisions, take the necessary steps to ensure special surveillance of:

(a) natural or legal persons in respect of whom there are reasonable grounds for believing that they are or have been involved in operations in breach of customs legislation;

(b) places where stocks of goods have been or may be assembled in such a way that there are reasonable grounds for believing that these goods are intended to be used in operations in breach of customs legislation;

(c) goods that are or may be transported in such a way that there are reasonable grounds for believing that they are intended to be used in operations in breach of customs legislation; and

(d) means of transport that are or may be used in such a way that there are reasonable grounds for believing that they are intended to be used in operations in breach of customs legislation.

Article 4

Spontaneous assistance

The Parties and the Signatory CARIFORUM States shall assist each other, at their own initiative and in accordance with their

legal or regulatory provisions, if they consider that to be necessary for the correct application of customs legislation, particularly by providing information obtained pertaining to:

(a) activities which are or appear to be operations in breach of customs legislation and which may be of interest to the other Party or a Signatory CARIFORUM State,

(b) new means or methods employed in carrying out operations in breach of customs legislation,

(c) goods known to be subject to operations in breach of customs legislation,

(d) natural or legal persons in respect of whom there are reasonable grounds for believing that they are or have been involved in operations in breach of customs legislation, and

(e) means of transport in respect of which there are reasonable grounds for believing that they have been, are, or may be used in operations in breach of customs legislation.

Article 5

Delivery and notification

At the request of the applicant authority, the requested authority shall, in accordance with legal or regulatory provisions applicable to the latter, take all necessary measures in order:

(a) to deliver any documents, or

(b) to notify any decisions,

emanating from the applicant authority and falling within the scope of this Protocol, to an addressee residing or established in the territory of the requested authority.

Requests for delivery of documents or notification of decisions shall be made in writing in an official language of the requested authority or in a language acceptable to that authority.

Article 6

Form and substance of requests for assistance

1. Requests for assistance pursuant to this Protocol shall be made in writing. They shall be accompanied by the documents necessary to enable compliance with the request. When required because of the urgency of the situation, oral requests may be accepted, but must be confirmed in writing immediately.

2. Requests pursuant to paragraph 1 shall include the following information:

(a) the name of the applicant authority;

(b) the measure requested;

(c) the object of and the reason for the request;

(d) the legal or regulatory provisions and other legal elements involved;

(e) indications as exact and comprehensive as possible on the natural or legal persons who are the target of the investigations; and

(f) a summary of the relevant facts and of the enquiries already carried out.

3. Requests for assistance shall be submitted in an official language of the requested authority or in a language acceptable to that authority. This requirement shall not apply to any documents that accompany the request under paragraph 1.

4. If a request does not meet the formal requirements set out above, its correction or completion may be requested; in the meantime precautionary measures may be applied.

Article 7

Execution of requests for assistance

1. In order to comply with a request for assistance, the requested authority shall proceed, within the limits of its competence and available resources, as though it were acting on its own account or at the request of other authorities of that same Party or Signatory CARIFORUM State, by supplying information already in its possession, by carrying out appropriate enquiries or by arranging for them to be carried out. This provision shall also apply to any other authority to which the request has been addressed by the requested authority when the latter cannot act on its own.

2. Requests for assistance shall be executed in accordance with the legal or regulatory provisions of the requested Party or Signatory CARIFORUM State.

3. Duly authorised officials of a Party or Signatory CARIFORUM State may, with the agreement of the other Party involved and subject to the conditions laid down by the latter, be present to obtain in the offices of the requested authority or any other concerned authority in accordance with paragraph 1, information relating to activities that are or may be operations in breach of customs legislation which the applicant authority needs for the purposes of this Protocol.

4. Duly authorised officials of a Party or Signatory CARIFORUM State involved may, with the agreement of the other Party or Signatory CARIFORUM State involved and subject to the conditions laid down by the latter, be present at enquiries carried out in the latter's territory.

Article 8

Form in which information is to be communicated

1. The requested authority shall communicate results of enquiries to the applicant authority in writing together with relevant documents, certified copies or other items.

2. This information may be in computerised form.

3. Original documents shall be transmitted only upon request in cases where certified copies would be insufficient. These originals shall be returned at the earliest opportunity.

Article 9

Exceptions to the obligation to provide assistance

1. Assistance may be refused or may be subject to the satisfaction of certain conditions or requirements, in cases where a Signatory CARIFORUM State or the EC Party is of the opinion that assistance under this Protocol would:

(a) be likely to prejudice the sovereignty of a Signatory CARIFORUM State or that of a Member State of the European Union which has been requested to provide assistance under this Protocol; or

(b) be likely to prejudice public policy, security or other essential interests, in particular in the cases referred to under Article 10(2); or

(c) violate an industrial, commercial or professional secret.

2. Assistance may be postponed by the requested authority on the ground that it will interfere with an ongoing investigation, prosecution or proceeding. In such a case, the requested authority shall consult with the applicant authority to determine if assistance can be given subject to such terms or conditions as the requested authority may require.

3. Where the applicant authority seeks assistance which it would itself be unable to provide if so requested, it shall draw attention to that fact in its request. It shall then be for the requested authority to decide how to respond to such a request.

4. For the cases referred to in paragraphs 1 and 2, the decision of the requested authority and the reasons therefore must be communicated to the applicant authority without delay.

Article 10

Information exchange and confidentiality

1. Any information communicated in whatsoever form pursuant to this Protocol shall be of a confidential or restricted nature, depending on the rules applicable in each of the Parties or the Signatory CARIFORUM States. It shall be covered by the obligation of official secrecy and shall enjoy the protection extended to similar information under the relevant laws of the Party or the Signatory CARIFORUM State that received it and the corresponding provisions applying to the European Community authorities.

2. Personal data may be exchanged only where the Party or the Signatory CARIFORUM State which may receive them undertakes to protect such data in at least an equivalent way to the one applicable to that particular case in the Party or the Signatory CARIFORUM State that may supply them. To that end, parties shall communicate to each other information on their applicable rules, including, where appropriate, legal provisions in force in the Member States of the European Union.

3. The use, in judicial or administrative proceedings instituted in respect of operations in breach of customs legislation, of information obtained under this Protocol, is considered to be for the purposes of this Protocol. Therefore, the Parties or the Signatory CARIFORUM States may, in their records of evidence, reports and testimonies and in proceedings and charges brought before the courts, use as evidence information obtained and documents consulted in accordance with the provisions of this Protocol. The competent authority which supplied that information or gave access to those documents shall be notified of such use.

4. Information obtained shall be used solely for the purposes of this Protocol. Where one of the Parties or Signatory CARIFORUM State wishes to use such information for other purposes, it shall obtain the prior written consent of the authority which provided the information. Such use shall then be subject to any restrictions laid down by that authority.

Article 11

Experts and witnesses

An official of a requested authority may be authorised to appear, within the limitations of the authorisation granted, as an expert or witness in judicial or administrative proceedings regarding the matters covered by this Protocol, and produce such objects, documents or certified copies thereof, as may be needed for the proceedings. The request for appearance must indicate specifically before which judicial or administrative authority the official will have to appear, on what matters and by virtue of what title or qualification the official will be questioned.

Article 12

Assistance expenses

The Parties or Signatory CARIFORUM States shall waive all claims on each other for the reimbursement of expenses incurred pursuant to this Protocol, except, as appropriate, for expenses to experts and witnesses, and those to interpreters and translators who are not public service employees.

Article 13

Implementation

1. The implementation of this Protocol shall be entrusted on the one hand to the customs authorities of the Signatory CARIFORUM States and on the other hand to the competent services of the Commission of the European Communities and the customs authorities of the Member States of the European Union as appropriate. They shall decide on all practical measures

and arrangements necessary for its application, taking into consideration the rules in force in particular in the field of data protection. They may recommend to the competent bodies amendments which they consider should be made to this Protocol.

2. The Parties and the Signatory CARIFORUM States shall consult each other and subsequently keep each other informed of the detailed rules of implementation which are adopted in accordance with the provisions of this Protocol.

Article 14

Other agreements

1. Taking into account the respective competences of the European Community and the Member States of the European Union, the provisions of this Protocol shall:

(a) not affect the obligations of the Parties and the Signatory CARIFORUM States under any other international Agreement or Convention,

(b) be deemed complementary to Agreements on mutual assistance which have been or may be concluded between individual Member States of the European Union and Signatory CARIFORUM States.

2. The provisions of this Protocol shall not affect the European Community provisions governing the communication between the competent services of the Commission of the European Communities and the customs authorities of the Member States of the European Union of any information obtained under this Protocol which could be of interest to the European Community.

3. Notwithstanding the provisions of paragraph 1, the provisions of this Protocol shall take precedence over the provisions of any bilateral Agreement on mutual assistance which has been or may be concluded between individual Member States of the European Union and any Signatory CARIFORUM State insofar as the provisions of the latter are incompatible with those of this Protocol.

4. In respect of questions relating to the applicability of this Protocol, the Parties shall consult each other to resolve the matter in the framework of the Special Committee on Customs Cooperation and Trade Facilitation set up under Article 36 of the CARIFORUM-EC Economic Partnership Agreement.

PROTOCOL III

On cultural cooperation

THE PARTIES AND THE SIGNATORY CARIFORUM STATES,

Having ratified the UNESCO Convention on the Protection and Promotion of the Diversity of Cultural Expressions adopted in Paris on 20 October 2005, which entered into force on 18 March 2007, or intending to do so promptly;

Intending to effectively implement the UNESCO Convention and to cooperate within the framework of its implementation, building upon the principles of the Convention and developing actions in line with its provisions, notably its Articles 14, 15 and 16;

Recognising the importance of the cultural industries and the multi-faceted nature of cultural goods and services as activities of cultural, economic and social value;

Recognising that the regional integration process supported by this Agreement forms part of a global strategy aimed at promoting equitable growth and the reinforcement of economic, trade and cultural cooperation between the Parties;

Recalling that the objectives of this Protocol are complemented and supported by existing and future policy instruments managed in other frameworks, with a view to:

(a) integrating the cultural dimension at all levels of development cooperation and, in particular, in the field of education;

(b) reinforcing the capacities and independence of the Parties' cultural industries;

(c) promoting local and regional cultural content;

Recognising that protecting and promoting cultural diversity is a condition for a successful dialogue between cultures;

Recognising, protecting and promoting cultural heritage, as well as promoting its recognition by local populations and recognising its value as a means for expressing cultural identities;

Stressing the importance of facilitating cultural cooperation between the Parties and for that purpose to take into account, on a case by case basis, *inter alia*, the degree of development of their cultural industries, the level and structural imbalances of cultural exchanges and the existence of preferential schemes for the promotion of local and regional cultural content,

AGREE AS FOLLOWS:

Article 1

Scope, objectives and definitions

1. Without prejudice to the other provisions of this Agreement, this Protocol sets up the framework within which the Parties shall cooperate for facilitating exchanges of cultural activities, goods and services, including *inter alia*, in the audiovisual sector.

2. While preserving and further developing their capacity to elaborate and implement their cultural policies, with a view to protecting and promoting cultural diversity, the Parties shall collaborate with the aim of improving the conditions governing their exchanges of cultural activities, goods and services and redressing the structural imbalances and asymmetrical patterns which may exist in such exchanges.

3. The definitions and concepts used in this Protocol are those of the UNESCO Convention on the Protection and Promotion of the Diversity of Cultural Expressions adopted in Paris on 20 October 2005.

4. In addition, for the purpose of this Protocol, 'artists and other cultural professionals and practitioners' mean natural persons that perform cultural activities, produce cultural goods or participate in the direct supply of cultural services.

SECTION 1 — HORIZONTAL PROVISIONS

Article 2

Cultural exchanges and dialogue

1. The Parties shall aim at fostering their capacities to determine and develop their cultural policies, developing their

cultural industries and enhancing exchange opportunities for cultural goods and services of the Parties, including through preferential treatment.

2. The Parties shall cooperate to foster the development of a common understanding and enhanced exchange of information on cultural and audiovisual matters through an EC-CARIFORUM dialogue, as well as on good practices in the field of Intellectual Property Rights protection. This dialogue will take place within the mechanisms established in this Agreement as well as in other relevant fora as and when appropriate.

Article 3

Artists and other cultural professionals and practitioners

1. The Parties and the Signatory CARIFORUM States shall endeavour to facilitate, in conformity with their respective legislation, the entry into and temporary stay in their territories of artists and other cultural professionals and practitioners from the other Party, or, as the case may be, the Signatory CARIFORUM States, who cannot avail themselves of commitments undertaken on the basis of Title II of the Agreement and who are either:

(a) artists, actors, technicians and other cultural professionals and practitioners from the other Party involved in the shooting of cinematographic films or television programmes, or

(b) artists and other cultural professionals and practitioners such as visual, plastic and performing artists and instructors, composers, authors, providers of entertainment services and other similar professionals and practitioners from the other Party involved in cultural activities such as, for example, the recording of music or contributing an active part to cultural events such as literary fairs, festivals, among other activities,

JOINT DECLARATIONS

JOINT DECLARATION ON DEVELOPMENT COOPERATION

The Parties recognise the important adjustment challenges that the implementation of this Agreement will pose, in particular to smaller economies among the CARIFORUM States. The Parties agree that an important number of commitments undertaken in this Agreement will require the rapid start of reforms. The Parties also recognise regional infrastructure as an important tool to enable the CARIFORUM States to take full advantage of the opportunities offered by this Agreement.

The Parties reaffirm the importance of ensuring the most efficient use of development finance resources, in order to meet the objectives of this Agreement, to maximise its potential and support its proper implementation, as well as to support the CARICOM Development Vision. The Parties note the availability of EUR 165 Million for financing the 10th EDF Caribbean Regional Indicative Programme (CRIP) and recall that under the Revised Cotonou Agreement, a successor to the current Financial Protocol will be agreed for the period 2014-2020. The Parties further recognise that the funds allocated to the Caribbean Regional Indicative Programme (CRI(P) in the 10th EDF are to be complemented by Aid for Trade contributions by Member States of the European Union (EU).

Pursuant to both the EU Aid for Trade Strategy adopted in October 2007 and the funding instruments enumerated in Article 7 of Part I of this Agreement, the Member States of the European Union confirm their intention to ensure that an equitable share of Member States' Aid for Trade commitments will benefit the Caribbean ACP States, including for funding programmes related to the implementation of this Agreement.

The Parties agree on the benefits of regional development mechanisms, including a regional development fund, accessible to all CARIFORUM States, to mobilise and channel Economic Partnership Agreement related development resources from the European Union and other potential donors. In this respect, the European Commission and the Member States of the European Union will consider the necessary arrangements with the CARICOM Development Fund, once established, with a view to providing to the Fund resources to support the execution of programmes related to the implementation of this Agreement, as well as to support related adjustment measures and economic reforms. The EU contribution would complement the contribution that will have been made by the Caribbean States and other donors.

The Parties agree that addressing CARIFORUM's most immediate development cooperation priorities, related to the implementation of this Agreement, would be accorded high priority in the programming of resources, notably, those made available under the 10th EDF.

JOINT DECLARATION ON BANANAS

The Parties recognise the importance of bananas to the economic development of a number of CARIFORUM countries in terms of employment, foreign exchange and social and political stability.

They similarly recognise that CARIFORUM banana exports to the EU have been helped in the past by a substantial tariff preference and that the maintenance of such preference for as long as possible would increase the benefits resulting from this Agreement.

The CARIFORUM States also consider that the possible reduction of the MFN tariff and the implementation of Free Trade Agreements between the EC Party and certain third countries would pose significant competitive challenges for the banana industry in several CARIFORUM countries.

Within the framework of European Community funding instruments, both Parties will decide on the programming of funds, in complementarity to the actions already funded, and with respect to the still available funds under the Special Framework of Assistance (SF(A), to help the CARIFORUM banana industry to further adjust to the new challenges, including activities aimed at increasing the productivity and competitiveness in areas of viable production, the development of alternatives both within and outside the banana industry, addressing social impact arising from changes in the sector and for disaster mitigation.

JOINT DECLARATION ON USED GOODS

With regard to the controls on the importation of motor vehicles and motorcycles older than five years, and vehicles greater or equal to five tons older than 15 years, pursuant to Dominican Republic Law No 147 of 27 December 2000 the EC Party undertakes not to challenge this law irrespective of the question of its compatibility with the Agreement.

JOINT DECLARATION ON RICE

The Parties commit to ensuring that the licensing and other arrangements for the administration of the tariff rate quota for rice, referred to in paragraph 2 of Annex II, are kept under detailed review with a view to ensuring that the CARIFORUM rice exporting States obtain the maximum benefits of this Agreement.

JOINT DECLARATION ON REALLOCATION OF UNDELIVERED QUANTITIES UNDER THE SUGAR PROTOCOL

The EC Party and the Signatory CARIFORUM States party to the Sugar Protocol shall seek to reallocate until 30 September 2009 any undelivered quantities from such States amongst other CARIFORUM States party to the Sugar Protocol to the extent permitted by Article 7 of the Protocol.

JOINT DECLARATION RELATING TO PROTOCOL I ON THE ORIGIN OF FISHERY PRODUCTS

The EC Party acknowledges the right of the coastal CARIFORUM States to the development and rational exploitation of the fishery resources in all waters within their jurisdiction.

The Parties agree that the existing rules of origin have to be examined in order to determine what possible changes may have to be made in the light of the first paragraph.

Conscious of their respective concerns and interests, the CARIFORUM States and the EC Party agree to continue examining the problem posed by the entry, onto EC Party markets, of the fishery products from catches made in zones within the national jurisdiction of the CARIFORUM states, with a view to arriving at a solution satisfactory to both sides. This examination shall take place in the Special Committee on Customs Cooperation and Trade Facilitation.

JOINT DECLARATION RELATING TO PROTOCOL I CONCERNING THE PRINCIPALITY OF ANDORRA AND THE REPUBLIC OF SAN MARINO

1. Products originating in the Principality of Andorra falling within Chapters 25 to 97 of the Harmonised System and products originating in the Republic of San Marino shall be accepted by the CARIFORUM States as originating in the European Community within the meaning of this Agreement.

2. Protocol I shall apply *mutatis mutandis* for the purpose of defining the originating status of the abovementioned products.

JOINT DECLARATION ON THE SIGNING OF THE ECONOMIC PARTNERSHIP AGREEMENT

The Parties acknowledge that the signature of the Economic Partnership Agreement (the 'Agreement') signals the changing dynamics of the global economy as well as the continuing importance of our cooperation to the realisation of the development objectives of the CARIFORUM States.

As we affix our signature to the Agreement, we emphasise that it must be supportive of the development objectives, policies and priorities of the CARIFORUM States, not only in its structure and content, but also in the manner and spirit of its implementation.

To that end and as indicated in article 4 of the Agreement, its implementation will pay due regard to the integration processes in CARIFORUM, including the aims and objectives of the CARICOM Single Market and Economy as outlined in the Revised Treaty of Chaguaramas. In such implementation, special consideration will be given to reinforcing the regional integration schemes of the CARIFORUM States and ensuring their further sustainable advancement.

We declare our commitment to work closely, within the institutions of the Agreement, to achieve its aims and objectives taking special account of the different levels of development among our countries, notably the needs of the small vulnerable economies, including, in particular, Haiti as a Least Developed Country, as well as those designated as less developed under The Revised Treaty of Chaguaramas.

We understand that, in the context of our continued monitoring of the Agreement within its institutions, as provided for under article 5 of the Agreement, a comprehensive review of the Agreement shall be undertaken not later than five (5) years after the date of signature and at subsequent five-yearly intervals, in order to determine the impact of the Agreement, including the costs and consequences of implementation and we undertake to amend its provisions and adjust their application as necessary.

— taken note of the following Declaration:

DECLARATION OF THE CARIFORUM STATES RELATING TO PROTOCOL I ON THE ORIGIN OF FISHERY PRODUCTS FROM THE EXCLUSIVE ECONOMIC ZONE

The CARIFORUM States reaffirm the point of view they expressed throughout the negotiations on rules of origin in respect of fishery products and consequently maintain that following the exercise of their sovereign rights over fishery resources in the waters within their national jurisdiction, including the Exclusive Economic Zone, as defined in the United Nations Convention on the Law of the Sea, all catches effected in those waters obligatorily landed in the ports of the CARIFORUM States for processing should enjoy originating status.

JOINT STATEMENT BY THE SIGNATORY CARIFORUM STATES AND THE EUROPEAN COMMUNITY AND ITS MEMBER STATES, UPON SIGNATURE OF THE CARIFORUM-EC EPA

The States and the European Community, signatories of the 'Economic Partnership Agreement between the CARIFORUM States, of the one part, and the European Community and its Member States, of the other part' (the 'Agreement'), take note that the Republic of Haiti and the Republic of Guyana have not signed the Agreement at this stage. Consequently, as a matter of international law, the Republic of Haiti and the Republic of Guyana shall neither be subject to the obligations, nor enjoy the rights, provided for by the Agreement. The signatories look forward to the early signature and provisional application of the Agreement by the Republic of Guyana and the Republic of Haiti.
